2006-2007	433	122	338	62	90	13	1,058

Number of Public Schools by Type

*The number of schools varies from other reports in this publication because resource schools without students are included in this report only. 2001-2002 was the first year that these data were produced using MSIS.

Note: Because of the variety of grades within schools it is impossible to categorize all schools in Mississippi as Elementary or Secondary. Therefore, all schools will be categorized as:

- Elementary (K-8)
- Secondary (7-12)
- Combined Elementary & Secondary (K-12)
- Alternative Education
- Vocational-Technical Education
- State Special Schools
